I approach my work and learning methodically, driven by a passion as a Data Science and Networking enthusiast. My aim is to continuously develop practical skills and evolve into a seasoned business professional within the Tech industry. I aspire to create opportunities for young individuals and make meaningful contributions to the global market. Additionally, my enthusiasm extends to expanding my expertise beyond my current field, exploring related areas to enrich my understanding and capabilities.

Experience

Product Manager | Developer Intern
ZPOS, Lusaka, ZM
December 2021 - March 2022

At ZPOS, a dynamic company specializing in point of sale solutions tailored for small and medium-sized enterprises:

- Orchestrated the coordination and implementation of new product features between December 2021 and march 2022, aligning technical innovation with market needs.

- Embarked on a rewarding journey as a first-time intern during a designated summer term, actively engaging in hands-on learning and contributing effectively to ongoing projects.

This enriching experience from December 2021 to march 2022 provided invaluable insights into product management and development within the technology industry, refining my skills while embracing the collaborative and innovative culture at ZPOS.

Front-end Developer Intern
Lendbox, Lusaka, ZM
June 2022 - September 2022

At Lendbox, a cutting-edge loan management system provider:
- Collaborated within a cohesive team of 7 members from June 2022 to September 2022, delivering end-to-end solutions for clients, encompassing a deep understanding of client requirements.

- Acquired hands-on experience in software project management, effectively planning, executing, and overseeing software projects during the specified period.

This internship at Lendbox, spanning from June to September 2022, not only strengthened my technical abilities but also enriched my understanding of project management principles, solidifying my commitment to excellence in front-end development across diverse platform.
